Press Release

COAL MINES PROVIDENT FUND ORGANISATION, DHANBAD

SIMPLIFICATION OF PENSION DISBURSEMENT THROUGH –SUNIDHI

Dhanbad,

Date: 13.08.2021, Time: -11:30 AM

Coal Mines Provident Fund Organization (CMPFO), a statutory body under the Ministry of Coal, Govt of India was established in 1948 through an act of Parliament to administer different schemes of Provident Fund, Pension and Deposit Linked Insurance for coal mine workers. These schemes are administered through the Board of Trustees, comprising of 23 members representing Union Govt, State Govt and employees' representatives under Chairmanship of Secretary(Coal), Govt of India.

SUNIDHI (Superior New-generation Information and Data Handling Initiative) launched on 2nd October 2020, an ambitious information technology project, is an effort to digitize all provident fund and pension fund related activities of CMPFO so as to make the system more robust. This software application is running from its Data Centre at Hyderabad in sync with Disaster Recovery Centre at Bhubaneswar. All the 23 offices of CMPFO are connected to the data center through MPLS-VPN using RailTel Connectivity with a backup link from BSNL. So far more than **sixty thousand cases** have been settled through SUNIDHI which reflects the deep commitment of officers and all staff of CMPFO.

Instances have been brought to the notice of this office where, on death of a pensioner, the spouse/family members of the deceased pensioner are asked by the Pension Disbursing Banks to submit details and documents. This amounts to harassment of the spouse and family members and often leads to avoidable delay in commencement of family pension.

In its endeavor to extend seamless service to the Coal workers in the Country, a revised PPO form and life certificate form is being developed. The disbursing bank will collect the information in life certificate and send to all Regional Offices for necessary check and upload in SUNIDHI. After completion of this work, the spouse would be required to submit only death certificate in the bank for uninterrupted pension disbursement. It has also been decided to capture vital family details in SUNIDHI for prospective settlement of widow/widower pension. Legacy data will also be entered in SUNIDHI within 6 months. Each member would be required to open a joint account with spouse with facility of former/survivor for seamless commencement of pension without running from pillar to post. Accordingly, the current PPO is being revised to include family details in SUNIDHI.

Based on IIT-ISM report for creating a public interface system, NICSII has been contacted for its implementation. The work on this project would start after BoT's approval. Further e-Office is being introduced to make the organization paperless in our pursuit of greener planet. Thus intent for faceless interaction through portal is a move towards a digital economy, ease of doing business by reducing manual discretion and yet another attempt towards greater transparency, efficiency, and accountability.

In order to streamline the pension disbursement, the current system of paper based fund requisition from ROs, on twice a month basis, are being dispensed with. This would be replaced with fetching this from SUNIDHI itself by Headquarter on weekly basis and disbursement of fund to the Regional offices.

The Commissioner has directed disbursement of PF to subscribers of CMPFO at interest rate of 8.6% (recently notified by Govt of India) for the Financial Year 2018-19 with retrospective effect. It has also been decided to organize as many pension adalat as possible in order to minimize the pension grievances.

The Commissioner underscored that upcoming portal would strengthen and augment various service touch points, incorporating “Aatmanirbhar Bharat facilities” as well as embed collaboration tools for all stakeholders. Once commissioned, it would not only enhance efficiency, transparency and accountability multifold but also render best-in-class services to coal miners by reducing human intervention in processes with increased use of modern and cutting-edge digital technologies. The upcoming portal would be one stop source for all PF and pension related information for coal workers. It will also provide an efficient and effective grievance redress mechanism, an interface for Online Calculation of provident and pension fund, family pension, house building advances, marriage advances and other benefits.
